Load check

Person	Items where they are A	% of all items
Theo (Founder) – Idea Stage Solo	13 / 13 items – G1, G2, G3 KPIs + M1-M6 gates	**100% – OVERLOADED**
Future Head Nurse (to hire M2) – 15 nurses verified	0 currently, will take 3 items (nurse verified, shifts on time, weekly calls) = 23% after hire	**0% now → 23% after hire**
Future Tech / Dashboard Lead (to hire M3)	0 currently, will take MVP + Dashboard + reminders = 15% after hire	**0% now → 15% after hire**
Mentor / Incubator (Consulted)	Consulted (C) on 13 items, not Accountable	**C role only**

Does anyone hold more than 50%? What will you rebalance or cut? **YES – Theo holds 100% (13/13) because idea stage solo founder, just planning in head. OVERLOAD RISK.** Rebalance plan: M2 hire Head Nurse (female RN) to take A for nurse verification + shifts on time + weekly calls (3 items, 23%). M3 hire Tech part-time for MVP + Dashboard (2 items, 15%). M4 add 5 GPs part-time for doctor within 48h. Cut: Park SHCC

license + Chughtai MoU until 5 pilots paid (NOT NOW). This reduces Theo to <50% by M4. Mentor consulted weekly.
